

# Environmental Compliance Assessments

Identify and reduce federal and state environmental compliance risks in your facility

Currently, more than 1,600 manufacturing facilities in Georgia have some level of environmental violations, 17% of which are considered significant. Fines for these violations could range anywhere from \$18,000 to \$100,000 per day. What would a cost like this do to your bottom line?

As a manufacturer, you are subject to federal and state environmental compliance regulations. An environmental engineer who is not involved in your day-to-day operations can inspect your facility and give an unbiased view of at-risk areas such as air emissions, stormwater runoff, pollution, hazardous waste, solid waste, and more.

## ➤ GaMEP will:

- Identify regulations that apply to your organization.
- Recognize situations that are not in compliance with regulations.
- Outline a plan to take corrective and preventative measures.
- Gain the tools necessary to keep up with changing and new regulations.

## ➤ By conducting an Environmental Compliance Assessment, you will:

*Become Compliant*

*Avoid Costly Fines*

*Attract New Business*

*Increase Profitability*

# Environmental Compliance Assessments in Action

Georgia Manufacturers work side-by-side with GaMEP to stay compliant

GaMEP worked with an international automotive supplier to determine if the manufacturing organizations they were acquired in Georgia complied with all regulatory requirements.

In response to a community complaint, a small metal manufacturer located in a residential neighborhood in Atlanta worked with GaMEP not only to comply with Georgia stormwater regulations but also to strengthen their relationships with its stakeholders.

## Why Work with GaMEP?

Our goals are simple and impactful:

- Understand the current state of your company.
- Learn about your future goals.
- Teach your team to utilize tools and strategies to meet the needs of your organization.
- Advance your company's competitiveness and ensure a sustainable future for manufacturing in Georgia.

Each of our services resides in one of the following four key strategic solutions pillars within the GaMEP Organizational Excellence framework:

The pillars are interconnected to maximize effectiveness. If you have multiple areas to address, request an Organization Excellence assessment.

## What Sets GaMEP Apart

Each year, GaMEP works with more than 1,000 manufacturers to implement on-site projects, conduct training, and connect manufacturers to Georgia Tech resources and our partners throughout the state. We do this through:

- Federal and state funds that help offset the cost to Georgia manufacturers, making your investment more powerful.
- Access to locally based project managers that have years of experience developing and implementing best practices for manufacturers.
- Immediate and long-term solutions that increase top-line growth and reduce bottom-line costs throughout your organization.

*Service areas include: process improvement, quality, robotics, business strategy, technology integration, ISO management systems, energy, sustainability, safety integration, and more.*

See what all the "Buzz" is about.
