

Facility-Level Energy Assessment

Maximize energy cost-saving opportunities throughout your entire facility

Do you want to reduce your energy costs by 10% or more, but you're not sure where to begin or what needs to be done? Performing an energy assessment of your facility is a great place to start. GaMEP engineers, who are qualified as specialists in energy systems by the U.S. Department of Energy, will review where your company's energy dollars are going to help you identify where and how you can save on energy costs.

➤ GaMEP will:

- Learn about your plant, equipment, operations, and goals.
- Perform a thorough walk-through of your facility.
- Determine what energy systems in your facility need to be addressed and measured.
- Identify low- or no-cost areas for improvement.
- Recommend capital improvements that meet your financial goals.
- Develop an action plan for next steps.

Certain small- and medium-size manufacturers may qualify for a no-cost assessment through the Department of Energy's IAC Assessment Program. Visit <http://iacgeorgia.org/> for more information and to see if you qualify.

➤ By implementing a Facility-Level Energy Assessment, you will:

Prioritize Opportunities

Generate Bottom-Line Savings

Promote Continuous Improvement

Reduce Environmental Impact

» Facility-Level Energy Assessments in Action

Facility-Level Energy Assessments Produce Big Numbers in Savings

Calhoun Manufacturer

- Reduced its energy consumption by an estimated 56%, saving \$40,000 annually.
- Created a cultural shift toward energy reduction awareness and a reduced corporate energy footprint.

Dalton Manufacturer

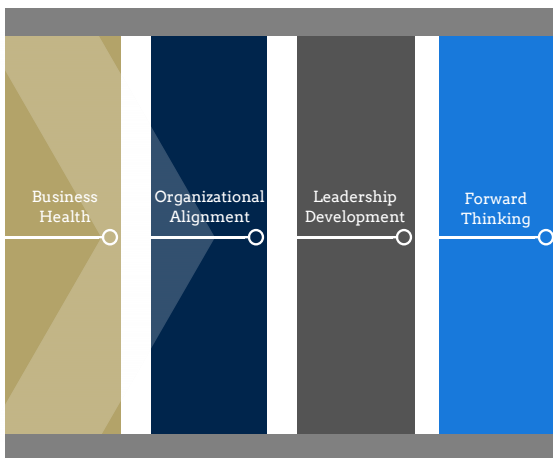

- Reduced energy usage by nearly 15%.
- Estimated annual energy savings of up to \$2 million.
- Conserved 25 million gallons of water, or \$81,600, in potential annual savings

» Why Work with GaMEP?

Our goals are simple and impactful:

- Understand the current state of your company.
- Learn about your future goals.
- Teach your team to utilize tools and strategies to meet the needs of your organization.
- Advance your company's competitiveness and ensure a sustainable future for manufacturing in Georgia.

Each of our services resides in one of the following four key strategic solutions pillars within the GaMEP Organizational Excellence framework:

The pillars are interconnected to maximize effectiveness. If you have multiple areas to address, request an Organization Excellence assessment.

» What Sets GaMEP Apart

Each year, GaMEP works with more than 1,000 manufacturers to implement on-site projects, conduct training, and connect manufacturers to Georgia Tech resources and our partners throughout the state. We do this through:

- Federal and state funds that help offset the cost to Georgia manufacturers, making your investment more powerful.
- Access to locally based project managers that have years of experience developing and implementing best practices for manufacturers.
- Immediate and long-term solutions that increase top-line growth and reduce bottom-line costs throughout your organization.

Service areas include: process improvement, quality, robotics, business strategy, technology integration, ISO management systems, energy, sustainability, safety integration, and more.

See what all the "Buzz" is about.
