

ISO 9001 Audits

Teach your internal auditors to add significant value to your organization

Are you currently implementing an ISO 9001 Quality Management System, but need an outside perspective to ensure you are ready for the registration or supplier audit?

Do you already have an ISO 9001 Quality Management System (QMS) in place, but are struggling to find value in your own internal audits?

GaMEP has ISO 9001 lead auditors on staff to help manufacturers across Georgia conduct audits, train internal auditors, and help set-up your internal audit system so that you are consistently making improvements to save time, money, and materials.

➤ GaMEP will:

- Conduct a gap audit to determine areas of improvement.
- Lead internal audits to teach your team how to find opportunities for improvement.
- Plan and conduct pre-assessment audits to ensure QMS conformance.
- Train your internal auditors to be prepared for future audits.

➤ By bringing in GaMEP for ISO 9001 Audits, you will:

Make Significant Improvements

Reduce Implementation Time

Save Time, Money, and Materials

Our goals are simple and impactful:

- Understand the current state of your company.
- Learn about your future goals.
- Teach your team to utilize tools and strategies to meet the needs of your organization.
- Advance your company's competitiveness and ensure a sustainable future for manufacturing in Georgia.

Each of our services resides in one of the following four key strategic solutions pillars within the GaMEP Organizational Excellence framework:

The pillars are interconnected to maximize effectiveness. If you have multiple areas to address, request an Organization Excellence assessment.

»»» What Sets GaMEP Apart

Each year, GaMEP works with more than 1,000 manufacturers to implement on-site projects, conduct training, and connect manufacturers to Georgia Tech resources and our partners throughout the state. We do this through:

- Federal and state funds that help offset the cost to Georgia manufacturers, making your investment more powerful.
- Access to locally based project managers that have years of experience developing and implementing best practices for manufacturers.
- Immediate and long-term solutions that increase top-line growth and reduce bottom-line costs throughout your organization.

Service areas include: process improvement, quality, robotics, business strategy, technology integration, ISO management systems, energy, sustainability, safety integration, and more.

See what all the "Buzz" is about.
