Implementing lean principles throughout an organization for optimal results is a long-term commitment that takes top-management support and employee involvement. Strategically align your organization with a common goal of lean transformation and you’ll instantly detect value-add versus non-value-add activities, reduce waste, improve efficiency, and increase profitability.

GaMEP will help you:

- Select “lean leaders” in your company who will help facilitate the lean journey.
- Coach and mentor your teams to make both short-term and long-term improvements.
- Learn how to identify future opportunities and implement change within those areas.

By maintaining a lean organization, you will:

- **Save Time and Money**
- **Streamline Production**
- **Respond More Quickly to Market Demands**
- **Boost Customer Satisfaction**
Our goals are simple and impactful:

- Understand the current state of your company.
- Learn about your future goals.
- Teach your team to utilize tools and strategies to meet the needs of your organization.
- Advance your company’s competitiveness and ensure a sustainable future for manufacturing in Georgia.

Each of our services resides in one of the following four key strategic solutions within the GaMEP Organizational Excellence framework:

- Business Health
- Organizational Alignment
- Leadership Development
- Forward Thinking

The pillars are interconnected to maximize effectiveness. If you have multiple areas to address, request an Organizational Excellence assessment.

Why Work with GaMEP?

What Sets GaMEP Apart

Each year, GaMEP works with more than 1,000 manufacturers to implement on-site projects, conduct training, and connect manufacturers to Georgia Tech resources and our partners throughout the state. We do this through:

- Federal and state funds that help offset the cost to Georgia manufacturers, making your investment more powerful.
- Access to locally based project managers that have years of experience developing and implementing best practices for manufacturers.
- Immediate and long-term solutions that increase top-line growth and reduce bottom-line costs throughout your organization.

Service areas include: process improvement, quality, robotics, business strategy, technology integration, ISO management systems, energy, sustainability, safety integration, and more.
