

Water & Wastewater Assessment

Learn how to reduce your costs related to the water coming into and out of your plant

Are your utility costs through the roof? Are you interested in solutions to clean up wastewater streams, giving your company a reputation as a sustainable facility? You can both save money and ensure compliance with the Clean Water Act by assessing where your water-related dollars are going and examining your operations from a sustainability perspective.

GaMEP will:

- Assess your water-related situation from an environmental point of view.
- Determine alternative solutions for treating wastewater.
- Outline a plan to take corrective actions.
- Work on a roadmap specific to your team and company.

By conducting a Water and Wastewater Assessment you will:

Generate Bottom-Line Savings

Reduce Your Environmental Footprint

Become More Competitive

Water and Wastewater Assessment in Action

Augusta Manufacturer Makes Improvements to Treat its Own Wastewater

An Augusta manufacturer was paying a trucking company to haul excess wastewater off premises because its on-site treatment facility lacked enough capacity. The manufacturer wanted to cut these costs and remove the logistical aspect, so GaMEP was asked to assist in the evaluation of treatment processes. Through the work with GaMEP, the company was able to:

- Upgrade and expand its industrial wastewater treatment facility.

- Treat all process wastewater generated within its facility.

- Plan for future production expansion due to these modifications.

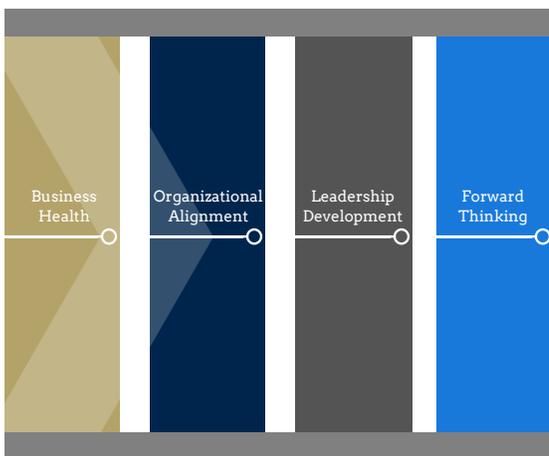

- Design a process to reuse the wastewater effluent for washdown activities within the company.

Why Work with GaMEP?

Our goals are simple and impactful:

- Understand the current state of your company.
- Learn about your future goals.
- Teach your team to utilize tools and strategies to meet the needs of your organization.
- Advance your company's competitiveness and ensure a sustainable future for manufacturing in Georgia.

Each of our services resides in one of the following four key strategic solutions pillars within the GaMEP Organizational Excellence framework:

The pillars are interconnected to maximize effectiveness. If you have multiple areas to address, request an Organizational Excellence assessment.

What Sets GaMEP Apart

Every year, GaMEP works with more than 1,000 manufacturers to implement on-site projects, conduct training, and connect manufacturers to Georgia Tech resources and our partners throughout the state. We do this through:

- Federal and state funds that help offset the cost to Georgia manufacturers, making your investment more powerful.
- Access to locally based project managers that have years of experience developing and implementing best practices for manufacturers.
- Immediate and long-term solutions that increase top-line growth and reduce bottom-line costs throughout your organization.

Service areas include: process improvement, quality, robotics, business strategy, technology integration, ISO management systems, energy, sustainability, safety integration, and more.

See what all the "Buzz" is about.
