

ISO 45001

Ensure the health and safety of your team and your work environment

Last year in Georgia, more than 500 manufacturers were inspected by OSHA. Did you know that workplace injuries and illnesses cost the U.S. \$250 billion annually? Are you concerned about being at risk for health and safety violations? Have you had any lost-time work incidents?

Meeting the ISO 45001 standard requirements allows organizations to minimize safety risks by using a system-based approach that applies to all employees, contractors, and visitors.

➤ GaMEP will:

- Draft or evaluate a plan to help you meet the requirements of the standard.
- Determine how change management can support improvements in safety and health.
- Define tools for participation and consultation.
- Identify opportunities for process and operational controls integration.
- Distinguish existing performance metrics that are appropriate and will help you meet ISO 45001 requirements.

➤ By implementing ISO 45001, you will:

Support Regulatory Compliance

Minimize Exposure to Safety Risks

Promote Employee Morale

ISO 45001 in Action

Yamaha Partners with GaMEP to Implement a Safety Management System

By working with GaMEP to implement a safety management system and integrate the standard into their existing management system, Yamaha:

- Added 5 new employee safety committees.
- Increased by more than 50% the number of implemented improvement projects that included a safety component.
- Reduced safety hazards, increased production capacity, and improved labor utilization, resulting in 292 seconds of time savings per cycle, a 61% risk reduction, and a total cost savings of \$87,000 per year.

Why Work with GaMEP?

Our goals are simple and impactful:

- Understand the current state of your company.
- Learn about your future goals.
- Teach your team to utilize tools and strategies to meet the needs of your organization.
- Advance your company's competitiveness and ensure a sustainable future for manufacturing in Georgia.

Each of our services resides in one of the following four key strategic solutions within the GaMEP Organizational Excellence framework:

The pillars are interconnected to maximize effectiveness. If you have multiple areas to address, request an Organizational Excellence assessment.

What Sets GaMEP Apart

Each year, GaMEP works with more than 1,000 manufacturers to implement on-site projects, conduct training, and connect manufacturers to Georgia Tech resources and our partners throughout the state. We do this through:

- Federal and state funds that help offset the cost to Georgia manufacturers, making your investment more powerful.
- Access to locally based project managers that have years of experience developing and implementing best practices for manufacturers.
- Immediate and long-term solutions that increase top-line growth and reduce bottom-line costs throughout your organization.

Service areas include: process improvement, quality, robotics, business strategy, technology integration, ISO management systems, energy, sustainability, safety integration, and more.

See what all the "Buzz" is about.
