Organizational Excellence Assessment

Holistically assess where your company is and how to most effectively achieve your future goals

Does your leadership team truly know where your company performs strongly and where it’s lagging or do they just think they understand?

The Organizational Excellence Assessment allows an unbiased look at your organization’s strengths, opportunities for improvement, and a road map for how to close those gaps to meet your short and long-term goals. By assessing your company’s business health, leadership, organizational alignment, and adoption of advanced processes and technology, GaMEP will be able to help you determine what those next steps should be and the benefits of implementation.

GaMEP will:

- Administer an online self-assessment to gain preliminary information.
- Conduct a 1 to 2-day on-site assessment that includes talking to individuals across the organization and observing the shop floor.
- Provide a detailed report summarizing the top three to five items to focus on and a recommendation on which would be the most impactful starting point.

By utilizing GaMEP’s Organizational Excellence Assessment and follow-up, you will:

*Gain a holistic and realistic look at your company*

*Assess Strengths and Opportunities*

*Pinpoint and Prioritize Organizational Needs*

Advancing Georgia Manufacturing

Organizational Excellence Assessment in Action

Conyers Manufacturer analyzed their business to best align the company for success.

LioChem’s leadership team took a step back and evaluated their day-to-day operations to help them find opportunities for improvement and growth. Working with GaMEP, they used the framework to help self-identify the best areas of advancement and prioritize the action items that aligned with their company’s key objectives. Since then, LioChem has:

- Improved communication through Gemba walks, employee meetings, and management reviews.
- Written a 3-year midterm plan and long-term vision statement.
- Kicked off implementation of a global SAP platform.
- Learned a process for benchmarking within their niche market.
- Developed a plan to produce one new product line this year.

Why Work with GaMEP?

Our goals are simple and impactful:

- Understand the current state of your company.
- Learn about your future goals.
- Teach your team to utilize tools and strategies to meet the needs of your organization.
- Advance your company’s competitiveness and ensure a sustainable future for manufacturing in Georgia.

What Sets GaMEP Apart

Each year, GaMEP works with more than 1,000 manufacturers to implement on-site projects, conduct training, and connect manufacturers to Georgia Tech resources and our partners throughout the state. We do this through:

- Federal and state funds that help offset the cost to Georgia manufacturers, making your investment more powerful.
- Access to locally based project managers that have years of experience developing and implementing best practices for manufacturers.
- Immediate and long-term solutions that increase top-line growth and reduce bottom-line costs throughout your organization.

Service areas include: process improvement, quality, robotics, business strategy, technology integration, ISO management systems, energy, sustainability, safety integration, and more.

See what all the “Buzz” is about.
