

Cybersecurity Maturity Model Certification (CMMC) Assistance

Achieve the appropriate level of CMMC in accordance with NIST SP 800 - 171 Rev. 2 requirements

The Cybersecurity Maturity Model Certification (CMMC) is a standard that the U.S. Department of Defense (DoD) uses to ensure that DoD contractors implement cybersecurity measures to safeguard controlled unclassified information (CUI.) However, navigating the CMMC framework and achieving compliance can be time-consuming and far from simple.

GaMEP's CMMC Assistance services will help you gain a better understanding of the CMMC's technical requirements and prepare you for certification so that you can obtain your position as a secured supplier.

GaMEP will:

- Provide training on NIST SP 800-171 Rev. 2 requirements as required by Defense Federal Acquisition Regulation Supplement (DFARS), including Controlled Unclassified Information (CUI), CMMC certification levels and requirements, and assessment framework.
- Assist with the development of a System Security Plan (SSP) and Plan of Actions and Milestones (POAM).
- Administer a pre-audit assessment.

By receiving CMMC Assistance, you can:

*Lessen the Impact of a
 Cyber attack*

*Put Measures in Place to
 Maintain Confidentiality,
 Integrity, and Availability
 of Data*

*Achieve Your Position
 as a Secured Supplier*

Cybersecurity Maturity Model Certification (CMMC) Assistance

Cybersecurity Statistics

2021 saw 50% more cyber attacks per week on corporate networks compared to 2020.

- CyberSecurityIntelligence.com

43% of cyber attacks are aimed at small businesses, but only 14% are prepared to defend themselves.

- Accenture Cost of Cybercrime Study

Why Work with GaMEP?

Our goals are simple and impactful:

- Understand the current state of your company.
- Learn about your future goals.
- Teach your team to utilize tools and strategies to meet the needs of your organization.
- Advance your company's competitiveness and ensure a sustainable future for manufacturing in Georgia.

Each of our services resides in one of the following four key strategic solutions pillars within the GaMEP Organizational Excellence framework:

The pillars are interconnected to maximize effectiveness. If you have multiple areas to address, request an Organizational Excellence assessment.

What Sets GaMEP Apart

Each year, GaMEP works with more than 1,000 manufacturers to implement on-site projects, conduct training, and connect manufacturers to Georgia Tech resources and our partners throughout the state. We do this through:

- Federal and state funds that help offset the cost to Georgia manufacturers, making your investment more powerful.
- Access to locally based project managers that have years of experience developing and implementing best practices for manufacturers.
- Immediate and long-term solutions that increase top-line growth and reduce bottom-line costs throughout your organization.

Service areas include: process improvement, quality, robotics, business strategy, technology integration, ISO management systems, energy, sustainability, safety integration, and more.

See what all the "Buzz" is about.
