

Supply Chain and Technology Review

Evaluate your supply chain to find opportunities to improve efficiency, mitigate risk, and optimize technology.

In the past year, over 60% of manufacturers have reported significant supply chain disruptions. Securing critical inputs in a timely manner is no longer something to be taken for granted.

While not all disruptions can be predicted or avoided, by analyzing and optimizing supply chain systems, partnerships, and technology, companies can hedge against risks and be better prepared to navigate the unexpected.

GaMEP's Supply Chain and Technology Review services can help you take a fresh look at your current supply chain, suggest opportunities to improve efficiency, and assist with technology implementation and integration.

GaMEP will:

- Complete an in-depth review of your company's supply chain systems and technology.
- Help your team evaluate the highest impact opportunities and recommend solutions.
- Utilize the MEP National Network to assist with supplier scouting and locating difficult-to-source materials and capabilities.

By utilizing GaMEP's Supply Chain services, you will:

Analyze Vulnerabilities
